Experience

SOFTWARE DEVELOPER (Wordpress) - 10/2020 to 09/2023

Webandcrafts (WAC), INDIA

- Developed robust PHP-based web applications from concept to deployment, leveraging frameworks such as Laravel and CodeIgniter.
- Designed and optimized MySQL databases, ensuring efficient data storage and retrieval through well-structured SQL queries.
- Integrated front-end UI components with server-side logic, ensuring seamless user experiences across desktop and mobile platforms.
- Optimized Shopify store performance for speed and improved user experience.
- Developed RESTful APIs using PHP to facilitate data exchange between server and client applications, ensuring security and scalability.
- Managed codebase using Git, facilitating collaboration and version control among development teams.
- Deployed applications on cloud platform like AWS ensuring scalability and reliability.

INTERMEDIATE PHP DEVELOPER - 06/2017 to 10/2020

TECHWYSE IT SOLUTIONS, INDIA

- Developed custom WordPress themes from scratch using PHP, HTML, CSS, and JavaScript, ensuring responsive and user-friendly designs
- Created and customized WordPress plugins to extend website functionality, adhering to WordPress coding standards and best practices
- Managed and maintained WordPress websites, updating content, configuring themes and plugins, and ensuring optimal site performance.
- Optimizing website content for search engines, conducting keyword research, and implementing on-page and off-page SEO techniques to improve organic search visibility
- Integrated third-party APIs (RESTful and SOAP) into WordPress sites, facilitating external services and data exchange.
- Implemented security best practices, including regular updates, data validation, and use of security plugins to protect against vulnerabilities.
- Optimized WordPress sites for speed and performance through caching strategies, image optimization, and code refactoring.
